Cosmos N

To be used in conference rooms or in the private home theatre, the electric reflecta Cosmos N screen offers a high-end solution for your projections. The reflecta electric system lives up to highest standards due to the conscious use of sturdy and safe components for a long product life.

Product details:

Fixed projection screen; with mounting system for an easy installation to the wall or ceiling. Available as electric RC Cosmos with RC remote control; switch on request. Screens in ValueLux quality (gain 1.2) . The screen is rolled up and down via a tube motor installed to the right of the steel shaft to save space and reduce noise. The motor has an integrated end position switch. The compact cross-section makes it ideal to be installed in intermediate ceilings or in concise places. Optional installation frame for suspended ceilings available. White tube with RAL 9010 powder coating.

Exactly sized precision steel shaft ensures perfectly plain position and flawless rolling of the screen.
Flame resistant screen material.
Screens excel with their colour-neutral imaging.
Projection screens correspond to the latest safety technology.
Projection formats 1:1 / 16:9 / 4:3 for all projection types.
Black rear side for all projection formats.
Continuous black screen border for masking for the projection formats 16:9 and 4:3.

Special sizes and mounting frames on request
