

BRAUN SMOOTH ND-VARIO Variable Light Control Filter

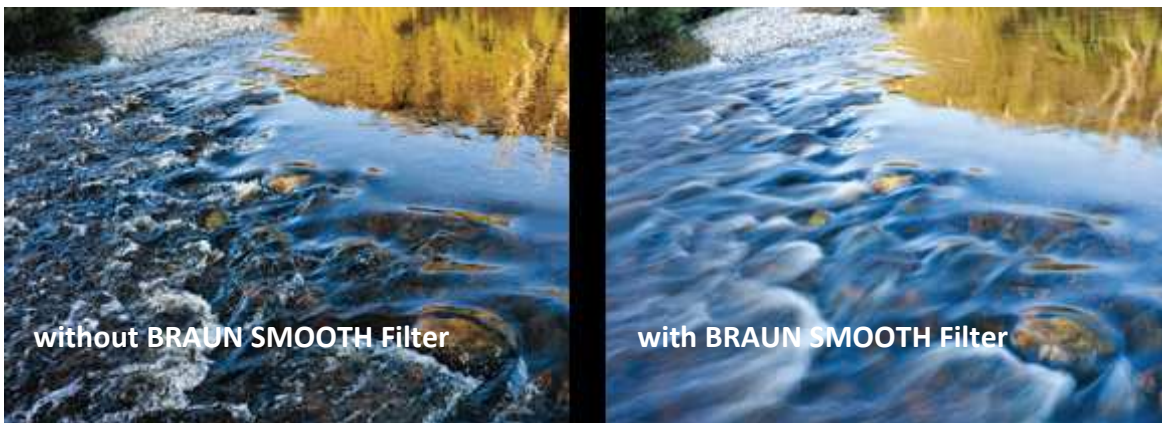

- Variable control on light volume
- PRO High Definition quality image
- Reduces light from 2 to 8 f/stops (equivalent)
- Allows the usage of a wider range of Aperture for depth of field control
- Slower shutter speed and longer exposure to produce flowing and blurred motion effects

Technical Specifications:

- Density control: 2-8 f/stop equivalent light reduction
- ND equivalent: ND2 – ND400
- Mechanical construction: Front rotating ring for varying light intensity reduction
- Lens Compatibility: 18 mm (APS-C) sensor / 28 mm (35 mm equivalent)
- Maximum Height: 10,5 mm
- Kit Content: Slim VLC filter, Microfiber filter pouch, Lens protection cap and high quality microfiber optical cleaning cloth
- Available diameter: 37mm, 40.5mm, 46mm, 49mm, 52mm, 55mm, 58mm, 62mm, 67mm, 72mm, 77mm
